

**Organized by:**

**Unidad de Hemodinámica Infantil.  
Servicio de Cardiología Pediátrica.  
Hospital General U. Gregorio Marañón**

**In collaboration with:**

**Grupo de Trabajo de Hemodinámica Infantil.  
Sociedad Española de Cardiología Pediátrica y Cardiopatías Congénitas.**

The aim of our workshop is to review the theoretical aspects, indications and technical peculiarities of novel procedures in the field of congenital cardiopathies. Attendees will have the opportunity of following the “live” cases held on the 25th June during the “XXI Updates in Pediatric Cardiology and Congenital Cardiopathies Course” in the aula magna of the Gregorio Marañón Hospital. In this manner, the theory will be supported with the possibility of watching each of these procedures in a real case.

We do not intend this to be an exclusively “interventionist” meeting, we will also be looking at the clinical aspects of the different techniques, such as indications and follow-up protocols in these patients and we expect active participation from cardiologists in the debates and discussions following the talks. Each of the cases to be performed on the 25th will be presented from the Hemodynamics Laboratory of the Gregorio Marañón and re-transmitted to the aula Magna of the Gregorio Marañón Hospital and the general Course.

**Inscription:** Participants in this workshop have a reduced fee of 200 €, allowing participation in the “XI Updates in Pediatric Cardiology and Congenital Cardiopathies”.

**Places:** Limited to 80 participants

## SCIENTIFIC PROGRAM

17.45-18.00 h

### WORKSHOP PRESENTATION.

**Dr. Francisco Fernández Avilés**

Hospital General U. Gregorio Marañón. Madrid

**Dr. Jaime Elizaga Corrales**

Hospital General U. Gregorio Marañón. Madrid

**Dr. José Luis Zunzunegui**

Hospital General U. Gregorio Marañón. Madrid

18.00-18.30 h

### WHEN SHOULD WE REALLY BE THINKING ABOUT VALVULATING RVOFT? IS SOMETHING CHANGING?

Moderators:

**Dra. M<sup>a</sup> del Mar Rodríguez Vázquez**

Complejo Hospitalario U. de Granada. Granada

**Dra. Raquel Prieto**

Hospital General U. Gregorio Marañón. Madrid

Speaker:

**Dra. M<sup>a</sup> Jesús del Cerro**

Hospital U. Ramón y Cajal. Madrid

18.30-19.00 h

### MELODY PERCUTANEOUS PULMONARY VALVE? PROSTHESIS???. WHAT WE HAVE LEARNT IN THE LAST 10 YEARS.

Moderators:

**Dr. Josep Girona**

Grupo Hospitalario Quirón. Barcelona

**Dr. Manuel Pan**

Hospital U. Reina Sofía. Córdoba

Speaker:

**Dr. José Luis Zunzunegui**

Hospital General U. Gregorio Marañón. Madrid

Presentation of clinical case of Melody valve implant, 25th June, re-transmitted to the aula magna of the Hospital Gregorio Marañón.

19.00-19.30 h

**EDWARD-SAPIEN PERCUTANEOUS PULMONARY PROSTHESIS. A NEW TOOL, WHERE AND HOW TO USE.**

Moderators:

**Dr. Eduardo Pinar**

Hospital U. Virgen de la Arrixaca. Murcia

**Dr. Ángel Sánchez Recalde**

Hospital U. La Paz. Madrid

Speaker:

**Dr. Fernando Sarnago**

Hospital General U. Gregorio Marañón. Madrid

Presentation of clinical case of Edward-Sapien valve implant, 25th June, re-transmitted to the aula magna of the Hospital Gregorio Marañón.

19.30-20.00 h

**PERIMEMBRANEOUS VSD CLOSURE WITH NIT-OCCLUD DEVICE. A PROMISING ALTERNATIVE FOR MODERATE DEFECTS.**

Moderators:

**Dr. José Manuel Velasco**

Hospital U. 12 de Octubre. Madrid

**Dr. Félix Coserría**

Hospital U. Virgen del Rocío. Madrid

Speaker:

**Dr. Fernando Ballesteros**

Hospital General U. Gregorio Marañón. Madrid

Presentation of clinical case of perimembraneous VSD closure with Nit-Occlud device, 25th June, re-transmitted to the aula magna of the Hospital Gregorio Marañón.

20.00-20.30 h

**“TELL US ABOUT YOUR CASE”.**

Informal presentation of cases with doubts as to whether these techniques may be applied. Attendees may handle the devices during the presentation to establish the basic principles of use.

20.30 h

**COCKTAIL**

**Sponsored by:**
